

Davidson Fellow

Eric Ryan Anderson

(\$10,000 Scholarship Recipient)

Personal Info

Name: Eric Ryan Anderson

Age: 18

Evanston, Wyoming

School Info

Eric will begin his first year at the Digipen Institute of Technology in Redmond, WA this fall.

Davidson Fellows Submission *(Technology)*

Eric demonstrated distinction in both computer programming and game design through his creation of "Snaker 2," a Real Time Interactive multi-player computer game which features AI controlled elements as well as a fully functional editor to allow players to create their own levels of game play.

Biography

Eric has lived in Evanston, WY for the past 10 years. He recently graduated from Evanston High School with awards in math and computer programming. He is the second oldest child in a family of six children. He is very interested in computer programming, especially computer gaming. Most of Eric's time is spent either working to save money for college, or creating computer games. This fall he will attend the Digipen Institute of Technology, a higher education institution that offers degrees in Computer/Video Game Programming and 3D Computer Animation.

College/Career Plans

Eric wishes to obtain a four-year college degree in Real-Time Interactive Simulation from Digipen, and become a computer game programmer.
